Lot Size: 580 cases

WINEMAKER'S NOTES

Talcott Vineyard is located on the Wahluke Slope of the Columbia Valley. Its deep silty soil structure allows for pure flavor development in the fruit, with expert canopy management protection the ripening fruit from the intense rays of the sun. Barrel fermentation accentuates the creamy sweetness on the palate, and fruit character is enhanced by avoiding a malo-lactic fermentation. Showing a gold green color and a charming nose of clementines, pine, and grilled peach with spicy oak notes. Soft and viscous on the palate with a clean, long finish.
